BACKGROUND

Legacy business practices:

- Generation of a requisition in MILSTRIP format for the contractor
- Receipt of a requisition from a contractor

Requisitions could be either funded or free issue:

- Subject to Management Control Activity (MCA) validation
- DLA acted as the MCA

EBS

- DLA no longer acts as the MCA for internal DLA contracts
- No requisitions are involved

Standard SAP Subcontracting Purchase Order functionality is:

- Used in EBS/SAP to support internal DLA contracts/purchase orders
- Subcontracting Purchase Order functionality used to control delivery of GFM

EBS

- External service managed contracts subject to MCA
- Requesting service acts as the MCA
- An EBS edit identifies GFM order
- AX1 transaction transmitted to the MCA for validation
- AX2 response from service required
